Measure, Appointment or Topic: HB2025

To the members of the Joint Committee on Transportation: I am a 70 year old woman who relies on transit daily to get to work , errands and socializing. I have not owned a car in nearly 20 years and rent one when needed or use car-share. Without transit or with major cuts to transit I would need to walk to my destination or cycle which is not sustainable for me . A reduction in transit would increase isolation for people and would adversely impact people who are lower income, those who choose not to have a car and will inhibit tourism . Please support public transit and this bill . Thank you.
