

Submitter: Jennifer Gillette

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

My name is Jennifer Gillette from Hillsboro, OR. I am strongly opposed to HB 2025. Raising gas taxes, registration fees, and licensing costs is unacceptable. This bill punishes honest, hardworking people like me because my company requires a lot of driving all around the Portland Metropolitan area to service homeowners. Gas prices are already too high in Oregon. We also have a fleet of vehicles so increasing costs associated per vehicle would put an undue stress on this small business. It already is hard to make ends meet. Adding new costs that this bill lays out would be crippling. Thank you for listening to my request to vote NO on HB 2025.
