On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I would love to see public transportation expand and become cleaner, safer, and more usable. Expanding the rails to go more places would be nice, and security and cleanings more often on the busses and trains. Public transportation is just so good for the environment and for having a community, I want to see even people who have the money for a car seeing it as a great option to get around.
