Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Oregon can't afford a new tax especially when the republicans have come up with a savings plan.

We no longer support the sanctuary spending and waste. You're inviting anyone to come into our state when you can't even take care of our own. These new taxes are just a band aid until next year when you cry wolf again.

You have implemented the Lottery to help schools, Pot tax for school and the CAT tax ( which generates a billion dollars a year ) for the schools and yet we are 48th in the nation for worst schools. You have proven that MORE tax does not fix your problems.

you MUST reevaluate the way you spend our hard-earned tax dollars- It is very clear you are in a budget crisis because people are LEAVING your state, time to wake up.
