

Submitter: Hudson Keough

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

trimet is the reason i'm able to have freedom of movement. i don't want to drive and im so grateful to live in a city with as good public transportation as we have. if there were to be any cuts to funding it would deeply impact mine and the rest of trimet riders freedom of movement and ability to get to work and extracurriculars.
