On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

My name is Jeff Northcutt I strongly oppose this tax, it should have been sent to the people to be voted on. These tactics that you use are downright dishonest and against every free person in this state. Waiting till you're about to recess to throw this in our laps is just wrong and you know it. This will hurt the elderly and small business in this state, we cannot afford this! Do the right thing vote this down.
