My name is Susan Rapetti from Eugene, Oregon. I submitted a text yesterday but I am so upset about this Bill I have to submit another text today. I'm strongly opposed to this bill as we, the people, just can't afford another increase in anything! I understand now why so many people want to split this state and add half of it to Idaho. They seem to understand people and their needs. You don't. Why don't you just cut your salaries? You're probably all millionaires. Why can't you let people vote on this? Why continuously take our money? Why did we ever move to Oregon? I keep asking myself that.
