SB238

As Americans we especially treasure our freedom and our privacy. People died so that we could have our Constitutional Republic, and we should not throw our freedom and privacy rights in the garbage. I oppose SB 238A. It destroys our freedom. It destroys our privacy. No one wants to live in a nanny surveillance state. We already have the ability for law enforcement to work with the judicial branch of our government to enforce laws while upholding the Constitution. SB 238A is foolish.
