Oregon is the WORST governed state I have ever lived in. Wasted money on homelessness (now have even more), publicly funded healthcare and legal help for NON-CITIZENS, 3 million abortion pills purchased "just in case" and other things that do NOT help the citizens and taxpayers of this state. People are LEAVING and the tax base is shrinking. The vast majority of the state is rural yet the mostly conservative voters are outvoted by the liberals in three main cities. Even Salem/Marion County went PINK for Trump in 2024. What do you liberals running the state not understand? A billion more in taxes to fix roads that you have been ignoring for decades? NO!!!!!!
