St. John's Needs An Emergency Route!

Our two bridges over the "Cut" will crumble when the earthquake hits us.

These are our "emergency routes."

Please give funding to the city so we can prepare to ask the Fed for money to fix this.

What will happen WHEN the big one comes?

-Nothing can go in or out

-Food

-Water

-People

-EMERGENCIE SERVICES!!!

PLEASE HELP US AVOID CATASTROPHIE!!!!!!

What if the oil containers just across the river burn and cover us in smoke and toxic chemicals?

PLEASE MAKE THIS PRIORITY! AT LEAST ONE OF THE BRIDGES!

DON'T LEAVE NORTH PORTLAND BEHIND. IT HAPPENS TOO OFTEN.
