

Submitter: Amy Tipsord

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This will be extremely harmful to those that can least afford to have transportation cost more and will be detrimental to our local economy as well as our State. While a "Sales Tax" is spread across all retail industries these taxes are targeted at the Automobile Industry specifically and again all these taxes have nothing to do with profitability just more passing on the cost to the people in our community who can least afford them.
