

Submitter: Sally Jennings

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am 74 years old and live in the Coast Range.

It is becoming more difficult for me to drive to Portland and Seattle. Dependable, high speed rail service would greatly benefit me. I currently must drive an hour and a half to Albany to take Amtrak. The trains are usually hours late in arrival, and crawl along the tracks, side tracking for every long freight train. I support high speed rail that runs the length of the Willamette Valley with a station in Corvallis.
