Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am opposed to this bill because it forces the rural communities to pay for urban projects thru taxes and is not equitable. These are local projects that benefit only the local users. If the local municipalities want the projects, make those who use them pay for them. Our gas taxes are already the 4th highest in the nation. We do not want to become number one in gas taxes while our potholes continue to grow and the gas money is syphoned off to Portland, Salem, Eugene etc. projects.
