On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please protect the very important St Johns neighborhood from the inevitable natural disaster. We know the impact is coming; let's prepare so that we're not caught off guard. This is an important way that we can not repeat the same (racist) mistakes of our past - it is imperative to prevent St Johns from facing the same fate as Vanport. Please do the right thing for our community, for our future and for our history and support mitigating the danger for our community.
