

Submitter: Kim Harroun

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a resident of Aumsville, Oregon, I'm taking a stand against HB 2025. This bill proposes to raise gas taxes, registration fees, and licensing costs - a move that's completely tone-deaf to the current cost-of-living crisis.

Our working families are already struggling to make ends meet. We don't need another financial burden. HB 2025 isn't just an inconvenience; it's a direct hit to our wallets and our way of life.

It's time for our legislators to understand the real impact of their decisions. We need solutions that help our community thrive, not policies that make daily life more challenging.
