

Submitter: Robert Crosby
On Behalf Of: Myself and other senior citizen on fixed incomes
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

As a senior citizen on a fixed income, this new tax will eat up our incomes. I will never understand why you want to pass bills that destroy people's incomes. Our founding fathers fought a war to stop taxation without representation. Tax and spend is what most of you do as our elected officials and we the taxpayers get nothing in return, WHY? I implore you to stop this nonsense and do what is right for the citizens of our state. I can totally understand why Eastern Oregon wants to become part of Idaho, it is because of the radicolous fees and taxes you keep wanting to destroy people with.
