

Submitter: Marion Hadden
On Behalf Of: Wildlife Crossing Funding
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

In HB 2025, I want to specifically support the provision to allocate and invest \$5 million/year in the safety program that reduces vehicle-wildlife collisions on Oregon's roadways. Support for wildlife crossings has seen bipartisan support over the past few years in the Legislature, and we encourage this committee to advance the bill with the wildlife connectivity funding as part of the package.
