

Submitter: Thomas Deyoe
On Behalf Of: Myself and all retirees
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

I thomas deyoe bitterly oppose this measure. I am retired and on a fixed income in a rural area. We are not able to support the urban areas at the expensive of our livelyhood. You and I know these money moneys will hardly be seen in the rural areas. You took our timber revenue, you propose a state property tax and want to give state union workers our unemployment benifits while on strike. Please get a life.
