Measure, Appointment or Topic: HB2025

I am writing in response to house bill 2025. To burden taxpayers with such an outrageous increase of gas tax, raise in registration fees and added taxes to new purchases of vehicles is totally unacceptable! Working people are already struggling to keep up with inflation and high prices brought on by the tariff scam! Enough is enough! We all have to live within our shrinking budgets. Figure out how to do the same without creating more stress to the taxpayers who are expected to pick up the tab.
