Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a low income senior struggling with rising costs. My home is right by 4 excellent TriMet lines that run every 15 minutes, even in snowy weather and heat. I depend on these services to maintain my part time work as a caregiver for disabled adults. Staff and our disabled clients use TriMet frequently. Don't cut funding but please increase as needed. Thank you!
