Measure, Appointment or Topic: HB2025

Dear Co-Chairs McLain and Gorsek and Members of the Committee,

Our public transit system is one of the greatest things about our area. I don't have a driver's license and, like many Oregonians, I rely exclusively on public transit to get around. Please support HB 2025. I rely on public transit for my entire social life. Without it, I would be stuck in my immediate area, which does not have a single grocery store. This increase in funding is the bare minimum necessary for our city to thrive - I would like to see this bill passed, and then future bills with a larger increase in funding.

Sincerely,
Amelia Jacobs
