Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I do not support this bill or more taxes for Oregonians. What I do recommend is the spending be evaluated and re-allocated. Governor Kotek is wasting the money on unnecessary projects, programs, and other wasteful avenues to spend the money. Oregon needs to take the money they already get from our ridiculously high taxes and use the money wisely instead of fleecing the taxpayers that are already paying WAY too much.
