

Submitter: David Grossnicklaus

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

TO our legislators:

Please cancel this abomination of a tax bill. The increases are incredible. I understand that ODOT has a hole. A hole of their making. I have known several people over the years that worked for ODOT and all but one talked openly about the waste in time and money. These fee and tax increases are going to just add to people's financial stresses. These types of tax increases are what just driver more tax payors out of state. PLEASE VOTE NO!!!!
