Measure, Appointment or Topic: HB2025

I strongly oppose this bill. If I have to pay my bills and live within my means so does the state. It is time to stop stealing from those of us left in the state and financing your pet projects. It's time to get serious again and pull our state off the trash heap and bring her back to the beauty she once was. Figure it out! NO NEW TAXES, we are not mini California. PS it didn't work for them if you haven't noticed.
