

Submitter: Alfred Calabria

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please record that I am opposed to this legislation. The people of Oregon can ill-afford increased taxes and fees; you should focus on tax and fee reductions if you really want to help the people and make home ownership more affordable. Yes, I understand this would require spending reductions, long overdue in our state. Thank you!
