

Submitter: Matthew Calef

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Committee members,

I stand opposed to HB 2025 in any form or amended form. Oregon does not suffer from a lack of funds... it differs from a lack of good management as evidenced by the exploding budget and deterioration of services for those dollars on all fronts. Please address the management problem before saddling Oregonians with additional taxes.
