

Submitter: Douglas Schmidt

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This is in opposition to the increase in taxes being proposed by this bill. If the state and ODOT cannot administer the funds already allocated, why should the people of the state of Oregon be made to pay more. Where is the accountability to the people paying the bills, the people of Oregon.

Stop the taxing and start being accountable. The money you have to administer is not yours, it is ours, the people of Oregon. Please make the tough decisions and reduce spending instead of taking more from the people of Oregon.
