On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB2025 and all the new taxes associated with it. Oregonian are taxed enough. We don't need new taxes. We need better fiscal responsibility in using the existing tax revenue! Think hard about which government programs are absolutely required versus nice-to-have and make the hard decisions to defund or reduce funding of existing programs in order to better utilize existing tax revenue where it is most needed. Oregon families must balance their personal budgets and prioritize their spending. So should government! Stop trying to raise our taxes! If you want Oregonians to move to another state which will reduce the state's existing tax revenue, just keep raising taxes! You will certainly drive people out of this beautiful state and that would be a shame.
