

Submitter: Patricia Lofgren

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a resident of Tigard and a former classroom teacher, I have experience with the value and importance of safe routes. There are currently travel routes here in my neighborhood that are dangerous to students traveling to school as well as adults just attempting to cross roads. I personally know a friend who lost a family member just attempting to cross Hall Boulevard.

Please support HB 2025!
