

Submitter: Tony Gracia

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a business owner and resident in the St. Johns neighborhood and would LOVE the Frog Ferry! It would be super fun, it would help attract both local residents and tourists to St. Johns, and would help ease the commute of many other North Portland residents who go to/from the south waterfront / OHSU area for work. The investment needed to get the Frog Ferry going is minor in comparison to other transportation and infrastructure projects, and would not only be practical and environmentally friendly, it would add a "WOW" factor to Portland and help make the city more fun and exciting!
