Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I write in support of funding and building wildlife crossings. I wonder how we could have ignored or been ignorant of the wild beings whose habitat was invaded, cut through to endanger and kill many many animals. Would funding and creating be something we can finally do to begin to heal the destruction and invasion.

I am in despair at our ignorance and cruelty and indifference.

Please fund these crossings.
