Oregon needs high visibility reputation win and Frog Ferry Passenger Service is it! Please vote for funding. Please use your power for good to make this happen.

Oregon and Portland need high value, low cost and seriously fun project to rally enthusiasm for our city and our state. We need to get the ball rolling and get folks excited to visit and show off Portland. Featuring the mighty Columbia and Willamette Rivers to enhance our reputation... that makes it easy.

My wife and I have invested our time and resource in Frog Ferry for years. There is a massive win for Portland: a marketing, PR and political value that can YOU can provide with a positive vote. At least a 100x return on this simple, small infrastructure investment. This project goes way beyond the transportation needs Frog Ferry also addresses; it delivers fun, civic pride and the positive attention of millions people across the USA.

Do not let this remarkable National and State and City branding, infrastructure and community connection opportunity go to waste. Be a winner! This is a no-brainer!
