TriMet should be operating on the revenue from the 3 Counties it was formed to operate in & does operate in.

I use TriMet as the 2nd form of weekly transportation.

.1% of All OR working residents is extortion of non TriCounty OR Citizens.
.3% does not solve TriMet's ignorance of Riders survey feedback & the public records showing ridership decline & accelerated decline since 2020's Work from home or another remote location from Brick & Mortar business Districts within Multnomah-Washington-Clackamas Counties.
