Committee:

House Committee On Rules

Measure, Appointment or Topic:

SB238

This bill is horrendous if it passes. It will increase more mass surveillance of our citizens and most likely will be used to further the racial disparities in the criminal injustice system. I understand The 47's administration tasked Palantir to create a mass database for everybody in the United States. In proxy, if you vote yes, you will be giving that administration a free pass. Also, why do we want to allow the government to intrude on our privacy more than the Patriot Act allows them to do? Please vote no. Drag this bill to hell where it belongs. Thank you!
