Committee: Joint Committee On Transportation Reinvestment  
Measure, Appointment or Topic: HB2025

I oppose HB 2025, the latest tax bill for transportation. HB 2025 will increase prices on EVERYTHING; all that we buy gets transported. Thus more expensive transportation means more expensive EVERYTHING. We all suffered the highest inflation in 40 years during the previous four years. Please do not add to the already heavy burden to folks just trying to "get by". This awful bill, HB 2025, increases our very high Oregon gas tax by 37%!! And ties it to inflation forever! DMV fees will increase greatly. Oregon is already a high tax and high regulation state. That needs to be lessened, not increased.
