

Submitter: NICK DAVIS

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

The increased taxes on vehicles, vehicle registration, licenses, and gasoline will have a greater affect on the poor and middle class. These taxes are by definition, "Regressive." Similarly, electricity prices have risen due to democrat green energy policies, which the poor and middle class have to choose to feed their families or pay their power bills. These additional taxes and cost increases, on necessities, are due to the failures of democrat leadership in the State of Oregon.

I urge you, and your colleagues, to vote No on adding and increasing regressive taxes and fees that will further strain the finances of the poor and middle class.
