SB243

These laws will do nothing to prevent your idea of mass shootings. You see there are laws already written that are supposed to protect people. Like murder and assault. Like gun free zones yet 11 people were stabbed weeks ago in a church. The average police call is 8-10 minutes. That is an eternity when your life is in danger. All you are doing is making it harder for law abiding citizens to protect themselves and or others in a time of crisis. Time to open your eyes and start enforcing the laws that are already set forth.
