

Submitter: Luke Groser  
On Behalf Of: SELF  
Committee: Joint Committee On Transportation Reinvestment  
Measure, Appointment or Topic: HB2025

Dear Legislators:

I encourage support for HB 2025. It helps and supports we earthbound humans to move toward a sustainable future for all. We must move toward more electric use in our activities. I am willing to pay for that policy change toward sustainability and away from fossil based energy use.
