

Submitter: Annette Palmer

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB 2025 due to the tax increases that come with the bill. Oregonians continue to see increases in our utilities, food, taxes, etc. Incomes whether fixed or through employment are not increasing high or fast enough or to keep up with these increases. This is causing a significant negative impact to those at the low and medium income brackets. There is little accountability for the money Oregon agencies already receive from our taxes. Fix the problem rather than asking the citizens of Oregon to sacrifice more.
