Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I strongly oppose this bill.

It's projected that state government will receive a RECORD 12% increase in revenue from the previous biennium (<https://oregonbusinessindustry.com/state-releases-close-of-session-revenue-forecast/>). Where is all of our taxpayer money going?

We don't have a revenue problem. We have a spending problem. And instead of fixing your reckless mismanagement, you want us taxpayers to continue to foot the bill for your failures.

You should consider the more fair and reasonable bill that would address these transportation issues that your Republican colleagues presented.
