

Submitter: Carolyn Decker

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I urge you to oppose HB2025

Not only is this bill going to cost senior fixed income residents like myself more of our retirement funds, but will do nothing to actually fix the problem of Oregon's mismanagement of our money in regards to ODOT. Rural Oregon residents do not use/or have mass transit buses or bike lanes, and yet we have some of the worst roads, and getting them plowed in winter can be a long wait. This bill does nothing to fix the current issues and instead creates more problems for residents and creates a hardship for governments mismanagement of our money.

Carolyn Decker
