

Submitter: Linda SpencerBlackledge

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a non-driving widow of a US Army veteran. I depend upon public transportation for all my needs. I use it for going to doctor appointments, picking up medications, grocery shopping, going to the public libraries for books and making copies, etc. Sometimes I even use it to go to church meetings or to go to my grandchildrens schools. Sometimes I also use it to visit friends in hospitals or in assisted living facilities.

As you can see, I need public transportation to go everywhere!

Please support any and all bills that financially support the operation of public transportation! It's needed now more than ever!

On my budget of Social Security and a pension, I cannot afford a private car or a taxi or Uber or Lyft. Neither can I afford delivery fees for my groceries and/or meals.

Thank you for your consideration.

Mrs. Linda Spencer-Blackledge
