

Submitter: Paul Donheffner

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I can't believe the audacity of this Legislature to even consider raising transportation taxes, fees, and new sales taxes given the horrible job ODOT has done with existing funds. Oregon's roads are terrible because of the failure of our recent Governors to run ODOT. The waste and lack of accountability are inexcusable. You don't reward waste with more taxes.

We already pay plenty. Green electric cars and bikes get a free ride at our expense. Privilege taxes??? We need cars for basic necessities. It's not a privilege to have the go to the supermarket or drug store? I hate this euthamism crap. Stop it. Wake up and get real.

Oregon doesn't have a revenue problem, it has a spending problem. NO NEW TAXES!!!!!!

Shake up ODOT before asking for another penny.

NO on HB2025.
