On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Expansion of public transportation routes, so more people can have access to public transit getting them to work, school, Healthcare, etc. I live in Oregon city and have to take 3 busses to and from work. Bus 32 the only line that goes out to where I live is very limited especially on weekends. I know plenty of people with no bus stops near them at all in a 30min walking distance.
