Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I can barely afford gas now and other vehicle expenses. You will soon "TAX" me out of affordability to own my own transportation. Please, no more taxes on transportation. And also I would like to address the fact that ODOT frequently can't seem to find millions they were given. I honestly believe these new taxes your asking for, are just to make up for poor management of the money you already have.

thank you

Victoria Mccurry - Redmond, Oregon
