Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a senior woman and do not have a car so I am not able to drive. I need the choice to get around my city and my state by walking, biking, and taking transit. Please fund these choices so that I and many, many other people like me can have the option and the pleasure of getting around. Isn't that the whole purpose of a Transportation Package?
