Hello, I can't be in Salem, as I am working every hour I can to afford to live in my home state of Oregon

You all as my representation In the legislation need to look at all of Oregon. Oregon is dying, our senior citizens now outnumber our youth. Families have moved out of Oregon last year, 132,000 of them!!

We can't not keep adding tax upon tax to those left here. We can no longer afford to live. More and more will move out and you will end up with even less revenue. Stop taxing us. We are bled out.
