

Submitter: Joel Hutchinson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This is a very self serving proposal that is meant to slowly work towards forcing the population to abandon personal vehicles and seek public transportation.

It also causes some individuals to move closer to metropolitan areas. That is the "endgame" for the liberal political movement.

Once again, the larger counties in Oregon are trying to force their will on the rural population.

The rural population will shoulder a higher cost. This will have a financial impact on goods and services.

Stop this ridiculous proposal.
