

Submitter: Janet Lumiansky

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a 76 year old woman on fixed income of social security. My bicycle is my main source of transportation from NE Portland for both financial and health reasons. I rely heavily on bike friendly streets & bike paths for daily errands and recreation. While I am grateful for what is available, I and others are also limited d/t unsafe street conditions. I implore you to make decisions about increasing bike lanes and upgrading safety conditions so that we can feel safer choosing this mode of transportation, which we know is beneficial for so many reasons.
