

Submitter: Jacob Wilson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HB2025 will only cause more hardship and financial burdens on working Oregonians to fund parts of Oregon that have shown they are unreliable in balancing their checkbook and getting projects done on time. Until the government can be held accountable for increased funding Oregonians should not be held reliable for poor leadership. Stop taxing Oregonians and fix yourselves first.
